Minutes
of
Branch Chief's Meeting of
11 August 1952

(b)(3)

The meeting was at 0835 in Mr. Steele's office with a quorum consisting of Mr. Sullivan, Chairman, Mr. Ahern, Mr. Barnard, Mr. Engle, Dr. Fairchild, Dr. Fondiller, ^{Mr.} ~~Mr.~~ Gordon, Dr. Harkin and Mr. Rajala.

b-1

b-2

b-3

Mr. Sullivan opened the meeting by saying that a project is to be started in the P&E Division on "Flying Saucers." It ^{has been} ~~was~~ suggested by

Dr. Odarenko that this project be set up to maintain ~~the file to establish~~ ^a ~~outside contacts on such matters and to build up the up-to-date knowledge~~ ~~of the available reports~~ to permit the Division and office to take a stand and to formulate an opinion as might be required.

b-2

ATIC has the job of finding out about these "flying saucers" and keeping records. ~~CRP~~ ^{CRP} is responsible for getting information for CIA. All members of the P&E Division are to look into this project and see what they can contribute to this problem. Each Branch ~~was~~ appointed a representative:

(b)(3)

Mr. Elby for Physics, and Mr. Barnard for Electronics and Communications. Mr. Ray Gordon is Project Officer for the P&E Division. ^{Mr. Sullivan} He is to find out who is handling the project in ~~CRP~~ ^{CRP} and get a past history of what has been found out in the field of meteorology, radar and the other sciences. He should secure reports from ATIC and bring us up-to-date on what has been done. ^{Mr. Rowland} is to

b-3

b-3

(b)(3)

Mr. Steele wanted to know if P&E should be in the position to answer requests coming to us. Since ATIC has a standard form for reference purposes, requests would be answered through contact with them. Air Force has local agents to look into any questions coming to them. ATIC has a record; it was believed, to cover the whole world.

[Mr. Sullivan] opened the meeting by saying that a project is to be started in the P&E Division on "Flying Saucers." It ^{has been} suggested by

[Dr. Odarenko] that this project be set up to maintain ^a ~~the~~ file to ~~establish~~ ~~outside contacts~~ on such matters ~~and to build up the up-to-date knowledge of the available reports~~ to permit the Division and office to take a stand and to formulate an opinion as might be required.

b-3

ATIC has the job of finding out about these "flying saucers" and keeping records. [Mr. Steele] is responsible for getting information for CIA. All members of the P&E Division are to look into this project and see what they can contribute to this problem. Each Branch ~~was~~ appointed a representative:

(b)(3) [Mr. Elby] for Physics, and [Mr. Barnard] for Electronics and Communications.

b-3

[~~Mr. Ray~~ ^{Mr. Gordon}] is Project Officer for the P&E Division. He is to find out who is handling the project in ORR, ^{[Mr. Rowland] is to} and get a past history of what has been found out in the field of meteorology, radar and the other sciences. He should secure reports from ATIC and bring us up-to-date on what has been done.

b-3

(b)(3) [Mr. Steele] wanted to know if P&E should be in the position to answer requests coming to us. Since ATIC has a standard form for reference purposes, requests would be answered through contact with them. Air Force has local agents to look into any questions coming to them. ATIC has a record, it was believed, to cover the whole world.

b-3

It was stated that [Mr. S. Fossony] who may be a special officer in

b-3

A-2, may be able to contribute something to this problem.

Mr. Sullivan

(b)(3)

gave a summary of the 5 years that Mr. Strong spent

at the time, so
the meeting, no

There was no specific problem to be discussed. The meeting was

adjourned.

~~XXXXXXXXXX~~

Distribution:

* where so many "flying saucers" have been reported of late. Although Mr. Strong knew many people there and traveled the area extensively, no unusual phenomena were ever mentioned or seen.
